WORLD WAR I
CENTENNIAL
SILVER DOLLAR

2018 WORLD WAR I CENTENNIAL SILVER DOLLAR

OBVERSE: The obverse of this design, titled "Soldier's Charge," depicts an almost stone-like soldier gripping a rifle. Barbed wire twines in the lower right-hand side of the design. Inscriptions include "LIBERTY," "1918," "2018," and "IN GOD WE TRUST."

REVERSE: The reverse of this design, titled "Poppies in the Wire," features abstract poppies mixed in with barbed wire. Inscriptions include "ONE DOLLAR," "E PLURIBUS UNUM," and "UNITED STATES OF AMERICA."

A TRIBUTE TO THE BRAVERY, ACTIONS, AND SACRIFICES OF AMERICANS

To commemorate the centennial of America's involvement in World War I, the United States Mint is proud to present the World War I Centennial Silver Dollar. Available with proof and uncirculated finishes, this coin is a tangible keepsake of America's efforts to, in President Woodrow Wilson's words, make the world "safe for democracy."

Although he campaigned on America staying out of the war, President Wilson asked Congress for a declaration of war as a result of a series of events, including the sinking of the *Lusitania*, the Zimmerman Telegram, and the resumption of unrestricted submarine warfare. America mobilized for war, aiding the Allies by providing financial and other resources, weapons, and troops. With more than 4 million Americans serving both on the front lines and here at home, the United States of America tipped the momentum in favor of the Allies. The U.S. emerged from World War I as a new world power propelled by its strong economy, mobilized workforce, and contributions of its citizens.

RESEARCH SAVES LIVES

The United States Mint is proud of the Breast Cancer Awareness Commemorative Coin Program and its role in funding research across the entire spectrum of breast cancer, including prevention, diagnosis, treatment, survivorship, and metastasis. Breast cancer knows no age, gender, or race. It is the most common cancer in women worldwide and the second most common cancer overall.

Facts about breast cancer in the U.S.

- Approximately one in eight women will be diagnosed with breast cancer in their lifetime.
- Every 2 minutes, a woman is diagnosed with breast cancer.
- More than 40,000 women and 200 men die from breast cancer each year. It is the second leading cause of cancer deaths in the country.
- Thanks to increased awareness, early detection, and improved treatments, death rates from breast cancer have decreased by 38 percent since 1989.
- In 2017, there were more than 3.5 million breast cancer survivors in the U.S.
